## BANANA KOSHER KUSH

**Kosher Kush**, also known as "Kosher OG," is a popular indica marijuana strain. Kosher Kush is currently offered in seed form from DNA Genetics, originated in Los Angeles as a clone-only strain. Historically, this strain has been named a winner of High Times Cannabis Cup's Best Indica in 2010 and 2011, as well as Best Strain in 2011. The effects of Kosher Kush produces staggering levels of THC. Known as one of the most odiferous OG Kush-related strains, it has a unique yet familiar smell reminiscent of rich earth and fruit, and is considered by many to be one of the tastiest smokes around. **Banana Kush** is a hybrid marijuana strain made by crossing Ghost OG and Skunk Haze. The result is a strain that tastes and smells like a bushel of fresh bananas. Banana Kush tends to provide a mellow buzz alongside a relaxed sense of euphoria. A great choice when dealing with stress or depression, Banana Kush also helps stimulate your creative juices and can help you remain talkative in social settings.

## FROSTED APRICOTS X SUGAR CANE

**Frosted Apricots**, by In House Genetics, is a cross between Irene Apricot x Slurricane #7. It has inherited many of the traits that has made Slurricane popular such as dense trichomes encrusted flowers with swollen calyxes and purple hues to full purple plants. The Irene Apricot in this cross brings loud Apricot Jam and Apricot juice, backed up by kerosene and grapes in some expressions. The high is predominantly relaxed, both in body and mind, but the sativa component adds a strong euphoria and feelings of happiness. This strain is often used to treat anxiety, chronic pain, and insomnia, while it's also helpful in treating depression, ADHD, PTSD, migraines, and PMS.
