

KING KONG

STRAIN SCORE **7.2**

King Kong is a hybrid marijuana strain. Mothered by Ed Rosenthal Super Bud, King Kong is indica-leaning and provides head-to-toe effects as strong as the giant ape himself. These dense conic buds come frosted in crystals and ribboned in hairs despite its short flowering time of only 7 to 8 weeks. King Kong is known to have a pungent sour, skunky smell with long-lasting effects that target pain, nausea, anxiety, and the appetite. King Kong may offer uplifting and focused effects to be enjoyed any time of the day.
