

# TORTONI

**STRAIN SCORE . . . . . 8.1**

Tortoni is a poly hybrid cross of my chocolope NL, Gelato #33, and Slurricane, from Totemic and can be cultivated indoors (where the plants will need a flowering time of  $\pm$ 70 days), outdoors and in the greenhouse. Tortoni is a THC dominant variety and is/was also available as feminized seeds. This cross expresses as an indica with dense trichome frosted flowers, with vivid orange pistils, carrying a sweet, fruity aroma, on a subtle spiciness, offering an austere, hashy, premium taste.

**BUD DENSITY . . . . . 7.4**

**TRICHOMES . . . . . 7.8**

**SMELL & TASTE . . . . . 7.5**

**EFFECT . . . . . 7.3**
